Dr. Leopold ZEMANN
Medical Supervisor of the State Prosthetic Workshops
Vienna, Austria

Dr. Leopold Zemann, a specialist in orthopaedics and orthopaedic surgery, has been particularly successful in the field of the development of cast resin prosthetic appliances in his country and, in spite of very limited resources, has done pioneer work in the invention of a bio-electrical power-assisted prosthetic appliance which is capable of being further developed.

Dr. Zemann has travelled widely in various countries in order to demonstrate and lecture on the Austrian bio-electrical prosthetic system and has been asked by the Federal Minister of Labour in Bonn to cooperation with the Institute for Research and Testing of Artificial Limbs of the Berlin Technical University in research concerning this system.

Dr. Zemann's pioneer work in this field and the consequent improvement of the treatment of the war disabled have prompted the Board of the Central Organisation of Austrian War Victims Associations to nominate him for this prize.

Number. 154 Constable Sri. Krishna Murty of SPL Bangalore came to see me in my house in Madikeri this morning, with Sommons to a witness issued on 7th October 1980 by Additional Sessions Judge, Delhi.

I have been Surmoned to appear before the Court of the Additional Sessions Judge in Delhi on 25th October 1980 as a witness in some case before the Sessions Judge ~~details~~ of which I cannot understand. It is difficult to read the name of the person mentioned in the Summons. Any how I am very sorry I cannot go to Delhi as I expect to be in Bangalore for Medical Treatment from 23rd October 1980 for some days. ~~Any how~~ Owing to my long illness I am medically advised not to undertake long journys either by Road or Rail or Air. In this circumstances would you kindly inform the Additional Sessions Judge in Delhi ~~that in the circumstances mentioned above~~ I much regret I cannot attend the court as summoned by him on 25th October, 1980.

Perhaps, if permissable, I could be given a short note on what exactly case is about because I cannot remember anything about person whose name is mentioned as having committed some offence as stated in the Summons issued to me.
